During the examination of men for the army, during our revent war with spain, our Linies. States army physicians were shocked to find so large a preventage of men disqualishe because of nervous disorders. It is not the purpose of these reports to enter into a statement of enters, other than to say that the sufferer is seldon to blame. His condition is indeed depletable; his memory fails him, his energy gone, his eyesight alimmed his muscles esti and his nervous stamina gone. He is pitted by those erised in hervous disorders and repelled by those ar both sex who do not understand how oast the world is to him.

Some officen vests ago the writer gave attention to the cure of nervous disorders, and found that the late Dr. Wilson, professor of chemistry sand practitioner of medicine in Believue Medical College of New York, had a formula of wonderful mower to restore to men the fullness of their obvisional and mental strength. There are not many ministers who would be willing to publicly endorse and recommend a cure of this kind, with the statement that they themselves had been cured by it, but the Rev. Crawford has in him a great deal of true gratitude and love of mankind. This is shown in a recent letter in which be says that he makes public acknowledgment "in order that others may receive the same bappy results."

You are older now and can look back and see the mistakes you have made, but you cannot recall the vigor and fire of the springtime of robust manhood. Your transgressions have left their mark Your errors and excesses have ravaged your system and undermined your nerve force. London's Seven Dials and New York's Five Points, long known to fame, must yield the palm to St. Louis's Twelve Corners. A proper designation of the place shown in this photograph would require five lines of type in The Republic. It is called Gravois avenue and Arsenal street for short. As a matter of fact, three streets cross at this point, and each intersection has its full quota of four corners. Six buildings within a radius of 100 feet occupy twelve corners. They are the northwest, northeast, southwest and southeast corners of Gravois avenue and Arsenal street; the northwest, northeast, southwest and southeast corners of Gravois and Pennsylvania avenues and the northwest, northeast, southwest and southeast corners of Arsenal street and Pennsylvania avenue.

by H. J. Drummond, who has claimed the position for the last year, was dissolved by Circuit Judge M. W. Schnefer in Belleville yesterday. At the next meeting of the Village Board Mr. Tojo will act as chairman of the board.

The village of Winstanicy recently voted to become part of East St. Louis. East St. Louis will now have to vote on the question of allowing the village to come into its municipality. At the last election Drummond claimed that he was elected, but on the contest Tojo showed that he had been elected chairman of the Village Board. Drummond appealed to the Supreme Court and in the meantime secured an injunction restraining Tojo from taking the chair. This injunction Judge Schnfer dissolved. It is thought that it will be a matter of but a short while until the village is made a part of East St. Louis.
